

Environmental Litigation

Our attorneys have experience handling a wide variety of environmental lawsuits, including:

- Allocation of liability under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the common law
- Enforcement of environmental indemnity provisions
- Insurance coverage
- National Environmental Policy Act (NEPA) violations
- Federal Highway Act 4(f) violations
- Civil enforcement actions by government agencies
- Criminal enforcement actions

Consideration of environmental consequences and liabilities is a common part of many governmental decisions, real estate transactions, land use planning, management business plans and deals. Our attorneys have a depth of knowledge and breadth of experience in this rapidly changing area of the law to provide our clients with comprehensive and innovative solutions for their environmental risks and problems.
